Helping your child prepare for their topic

Howard Carter was a world-renowned archaeologist and Egyptologist who discovered the intact tomb of the boy king Tutankhamun in 1922. Why not carry out research about Howard Carter, Tutankhamun and some of the other pharaohs who ruled over Ancient Egypt? You could make information pages from the facts that you find. Alternatively, visit a museum that has Egyptian artefacts on display. What can you learn about life in Ancient Egypt?

Our Class Novel – Secrets of a Sun King

It's 1922, just at the point when the world was poised waiting for the news about the discovery of Tutankhamun's tomb in Egypt, when Lil finds a mysterious package on her grandad's doorstep, just as he's struck down with a terrible illness.

The parcel was sent by a famous Egyptologist who has just been found dead! Is the curse of Tutankhamun the cause? Lil decides, with the help of her new friends, Tulip and Oz, that the only way to help her grandad is to return the package to its rightful resting place in Egypt.

This is a glorious historical adventure with a nimble, thrilling 1920s tale, as well as a wonderful subplot set back in Ancient Egyptian times, as found in a scroll written by Tutankhamun's best friend.
